

We purchased a 2011 Bounder at the Fleetwood Rally in June 2010 and promptly had the power windshield visor replaced with MCD shades. We have the brand new **power visor** we removed for sale. We will take \$25.00 for it, if the buyer pays shipping. It is 79 inches wide.

Also have the **day/night shades** from behind the couch and behind the dinette. They measure 72 inches and 60 inches.

Will sell them for \$25.00 each, again with buyer paying shipping.

We also have a **Progressive Electrical Management system** that works perfect for sale. This is the hard wire type. We had to get one with a remote read out for the Bounder, so we will sell it for \$200.00. They cost \$385.00 new. Buyer pays shipping.

We have an **MCD Shade** 26 inches wide and 36 inches long. We will sell it for \$25.00 It cost \$99.00. Buyer pays shipping.
